

Ascended Masters' Teachings ON TRANSITION

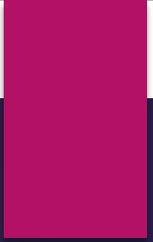

The ascended master Lanello explains that through habit and indoctrination, mankind have accepted that the laying down of the physical body is the definition of death. He says, "This definition is neither spiritual nor is it founded in cosmic law," and he elucidates Biblical scripture to prove it.

"PUTTING ON THE GARMENT OF THE LORD"

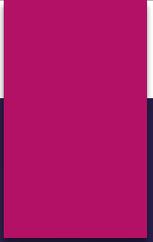

“That which is real, that which is born of God, created in the image and likeness of the flame of Life itself, cannot die. For the laws of disintegration and death do not apply to that perfect creation which God hath made. Only that which is unreal can die. And in this context, we define death as the cessation of being.”

NEITHER GOD NOR HIS CREATION- HIS
OFFSPRING, THE CHRIST-CAN DIE

As Ramakrishna spoke to Sarada Devi from beyond the grave and told her, “Here I am—where did you think I’d gone to? I’ve only passed from one room into another,” so I say to you in the words of Jesus: “In my Father’s house are many mansions: if it were not so, I would have told you. I go to prepare a place for you...that where I AM, there ye may be also.”

NEITHER GOD NOR HIS CREATION- HIS
OFFSPRING, THE CHRIST-CAN DIE

Jesus teaches us that transition is a process as natural as a leaf falling from the tree. At the time of transition, the breath of life and the bodily functions cease, and the threefold flame is withdrawn as the soul rises to her Lord. Once a temple for the soul, the body is now an outworn garment. It ought not to be immortalized, for we are not idolatrous of this body. It is a vehicle for a lesser consciousness which we are leaving behind and, therefore, the lawful place for this body is to be consigned to the physical fire.

Heart Transplants and Pacemakers

“The donation of a physical heart is simply the donation of a physical organ. It has no other significance. The donor does not receive the karma of the other person’s heart.”

~ Elizabeth Clare Prophet

ORGAN DONATIONS

Organ Donations

*Students on the path who expect to make their ascension should not as a rule donate their organs.

*Giving away parts of the body may or may not be deemed lawful.

*There is no reason why we should not give a part of ourselves that another might live, but when we are in the ascension mode, we must realize that a part of our self will not be accelerated or dematerialized. So, it is a sacrifice in a sense.

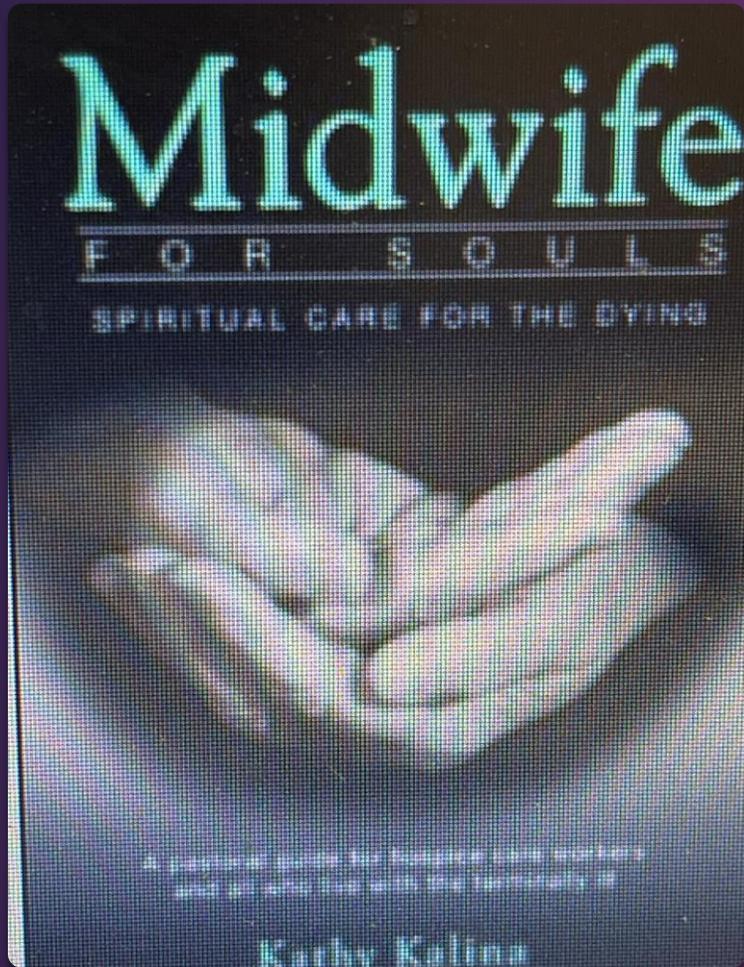

~ Elizabeth Clare Prophet

PASTORAL GUIDE FOR HOSPICE CARE WORKERS

A wide-angle photograph of a vast field of pink flowers, likely daisies, stretching towards the horizon. The flowers are in full bloom, with vibrant pink petals and green foliage. In the background, the ocean meets a dramatic sunset sky with soft, colorful clouds in shades of purple, pink, and orange. The sun is low on the horizon, creating a warm, golden glow. The overall mood is serene and beautiful.
